1. The following is forwarded in answer to your memorandum of 26 February requesting information regarding patent applications under the subject task order. Items produced under this task are unclassified. The name of the sponsor, however, is classified **SECRET**. On this basis, TSD sees no objection to filing patent applications on an unclassified basis providing there is no mention of this Agency.

2. Since the ultimate customer within this Agency is National Photographic Interpretation Center, it is suggested that they review the patent application. NPIC should also inform their associates in Air Force and Army who are other users of this equipment.
